## Instructor Questions - Frequency Analysis

I think that the overall quality of the precepts was:

Options	Score	Count	Percentage
Excellent	5	7	78%
Very Good	4	1	11%
Good	3	1	11%
Fair	2	0	0%
Poor	1	0	0%

**Please comment on the quality of the precepts. How did they contribute to your learning in the course? To what extent did the preceptor raise challenging questions, help clarify course material, and encourage broad student participation? Was the preceptor responsive to students' questions, opinions, and criticism?**

### Comments

Precepts were great because they always addressed remaining questions regarding the course. I really liked my preceptor who was very sweet and responsive to my questions. I found that precepts were integral to my understanding course material.

Tanika was a really great preceptor! She's extremely friendly and approachable, and really went to extra lengths to make herself accessible in person and via email. She was always happy to explain challenging concepts to ensure that we truly understood the material.

She was a great preceptor – one of the very best I have ever had. Very helpful both in and out of precept, always available during office hours, kept things interesting in precept.

Tanika is a wonderful preceptor—helpful, kind, erudite. Highly recommended.

Tanika did a really good job answering our questions and being responsive. She was super nice and even went out of her way to help my group. I really appreciate how much she put into the class, it was up to the level that the class demanded of us. Tanika was the highlight of this class for me.

Tanika's explanations of concepts/particularly quantitative were very clear and the discussions/activities she facilitated helped bridge the readings/lecture discussions and the assignments which helped clarify how to approach our own work (papers, group project, etc.). The questions posed/feedback provided on our GPs also helped focus and refine our work conceptually, which was really helpful/interesting.
